

PROFILE

Analytical and detail-oriented aspiring Data Scientist with a strong academic foundation in computer science and hands-on experience in programming and data analysis. Equipped with practical knowledge in machine learning, statistical modeling, and data visualization. Demonstrated ability to solve real-world problems through data-driven approaches and strong programming logic. Passionate about leveraging data to extract actionable insights and drive informed decision-making. Committed to continuous learning and growth in the evolving field of data science.

EDUCATION

Lovely Professional University, B.Tech CSE

2024 – 2028 | Phagwara, India

Growell School, Senior Secondary

2023 – 2024 | Patiala, India

89%

Growell School, Matriculation

2021 – 2022 | Patiala, India

93%

CERTIFICATES

- Introduction to AI and Machine Learning
- C Programming
- Webstan Hackathon
- Building Machine Learning Models with Scikit-learn
- Data Science Foundations

PROJECTS

Customer Churn Prediction using Machine Learning

Built a classification model using logistic regression and decision trees to predict customer churn from a telecom dataset. Achieved 82% accuracy..

COVID-19 Data Analysis & Visualization

Collected and analyzed global COVID-19 data using Python. Performed trend analysis, created time series plots, and built dashboards to compare country-wise case trends and recovery rates.

Data Dashboard with Matplotlib and Seaborn

Created an interactive dashboard for visualizing education data using advanced data visualization libraries.

House Price Prediction using Regression Models

Evaluated LLM responses across 50+ real-world prompt scenarios. Focused on hallucination detection, output consistency, and prompt injection safety.

PERSONAL SKILLS

Leadership Skills

Time Management

Interpersonal Skills

Communication Skills

Problem-Solving Abilities

AWARDS

- Special Recognition for Innovation Webstan Hackathon OpenAI API
- Finalist in a National-level AI Hackathon
- Winner of multiple CTF competitions (Web & Crypto)
- AI/ML Workshop Speaker – TechFest, LPU libraries
- Programming Contests – College Coding Club

TECHNICAL SKILLS

- Programming Languages: Python, C, JavaScript, HTML, CSS
- 📦Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn Claude
- AI/ML Frameworks: scikit-learn, LangChain
- NLP Tools: Text Embeddings, Tokenization, Sentiment Analysis
